other feedback                      notes

should not do combo pill, is a recommendation, not medical advice  
provided prices for insurance and no insurance, and also made clear that ring is only available for cash patient

tells no insurance price, says a doctor will review

removed combo pill, patch notes at beginning of quiz that should not be used as substitute for medical advice  
with and without insurance prices given

"You need to know your blood pressure (BP) within the last 6 months to receive treatment"

lots of also suitable options just a suggestion

doctor will review

additional options that might be suitable, removed combo pill, patch, and ring  
in and out of pocket prices listed

**bolded are dr recommended**

other options available      suggestions based off improving PCOS symptoms  
notes that combo pills can increase risk of blood clots for people that get migraine

doctor will review

all other options considered suitable  
in and out of pocket prices listed  
only one option but no rationale provided

eatment. It is an important factor in deciding whether it is safe for you to use birth control medication s

o It is essential that you are accurate and honest about your BP. When used improperly these medicatio

ons can cause serious harm, or death"
